

Heading 1

This is the first column on the inside of the brochure. Use this section to introduce your organization and describe specific products or services. This text should be brief and should entice the reader to read more about your product or service.

The template uses style sheets. The main styles are Heading 1, Heading 2, Heading 3, Body Text, List Bullet and Quote. There are also text styles for tables.

You can use secondary headings to organize your text and make it more understandable to the reader.

Heading 2

The text on this page is in three column format and will automatically flow from one column to the next. The graphic at the top of the page is part of the page header.

List your product or service benefits in this section. The InZones brochure template:

- has integrated style sheets and graphics
- is designed to be printed on your inkjet printer on two sides and folded into thirds.
- enables small businesses and companies to produce professional quality brochures on a limited budget

Inside Panel Heading

The heading above has a page break applied to the paragraph format so that it will start on a new page. This panel is the inside flap of the brochure. The next panel is the back cover and the third panel is the front cover.

Print this brochure on heavy-weight good quality paper on two sides and fold into thirds.

The graphics on this page are part of the header. This protects them from accidental deletion or movement. When graphics are in the page header they appear light on the screen, but will print in their full color. The Company address on the back cover is in the page footer. To edit the footer, select View/Header and Footer. Then click the down arrow to edit the footer.
